FALL WINTER

2009

# Floating focus

*Magnum Boating, Inc. @Indian Pointe Marina is fully operational. We have gas, a convenience store open, yearly slip rentals, boat rentals, the same excellent service for the entire lake, and the top of the product line in our manufacturers Chaparral, JC Pontoon, Moomba and Supra boats.*

*We can't wait to serve ALL of your family's boating needs!*

Dear Magnum Boating Family Members,

*It's fall again, and we are starting the winterization season and are prepared to serve you in all of your end-of-the-season needs. Take the time to get your boat winterized.*

*The number of people who lost engines to winter because they did not winterize in 2008 was staggering last year. If the power goes out on your heater you have in the boat, you CANNOT be certain you will know in time to prevent harm. The damage that is done by this type of freezing is not only costly but some issues arise later EVEN after the engine(s) is replaced. While some think only the engine is damaged, not getting your boat winterized can cause all types of problems.*

Call in before October 30 to guarantee your winterization place. Please write your work order number down. It will correspond with

the service you are receiving and insures that all your needs are met for the winter season. If you don't get a number, ask for it—this is the best way to streamline our efficiency and accountability. **CALL 540-719-2427; 540-355-1392 to get your service lined up.**

We have 24-hour gas on site, a convenience store, and coming soon is a new family restaurant called **Magnum's the Boathouse**. We will focus on great food (appetizers, sandwiches, burgers, southern cooking, and desserts). We will open this winter. Our customers wanted a grille type atmosphere, and we are going to give it to them. Interested in knowing more? Call and find out. Established in 1986, we continue to grow and serve our customers.

Sincerely,  
**Tim, Walter, Dave, and Karl—  
Team Magnum**  
Magnum Boating, Inc. --Your Full Service Boating/Marina Center

## **\*\*Winterization 09 Prices**

**Basic : \$135**  
**Full-Service: \$340**

*Discounts for services combined with 3 or more people on the same day and in the same neighborhood. Get two neighbors to get their boats winterized in your neighborhood and save on service call pricing.*

*Join our boating family and we will earn your business.*

## Winter Reminders

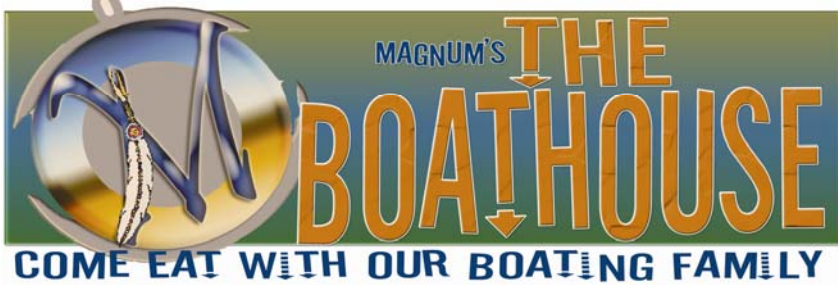

Batteries are not covered by winterization processes and should be slowly trickle charged all during the winter months. Talk to us about how to set this process up so you will not have a dead battery when the season begins in the spring. We will work with you to make sure your winterization process is the best ever. Magnum can not be held responsible for battery failure, so let's work together to save you time, energy, and frustration so you can enjoy your watercraft and your downtime.
